Mac OS  
Windows  
Linux

### EDITORS

VS Code  
Atom  
BBEdit  
Sublime Text

### PRODUCTIVITY

Apple Pages/Numbers/Keynote  
Microsoft Office  
OpenOffice

## Profile

As a Front-end designer and developer with a background in graphic design, I love to create digital products with the final user's needs in mind. I believe in creativity as an attitude in finding unconventional solutions to a problem. And applying this concept to web design is what I'm passionate about. The place where the creative side meets the technical stuff.

## Experience

### QUALIMEDLAB SRL, PISA, 2012 - TODAY

*Graphic design / Web design & development.*

Company brand and visual identity redesign.

Restyling and restructuring of the company's web application for external and internal quality control in laboratory medicine.

Front-end development (HTML, CSS, Javascript code management).

### IFC CNR, PISA, 2014 - TODAY

*Graphic & Web design / Front-end development.*

Collaborative activities in the context of research projects promoted by the Institute of Clinical Physiology of the CNR and by other bodies / companies involved.

Health360 project: analysis, design and definition of the graphic interface and Front-end development for a management of clinical and health data web application. Logo and print design.

iTrain web platform: UI/UX/Mobile design for a web platform for remote training in medical imaging to improve the participants skills in the interpretation of images of real clinical cases. Logo and print design.

## **FREELANCING, 2011 - 2012**

*Graphic & Web design / Front-end & Back-end development*

Wordpress platform for Professional Master's Programme in Translation of postcolonial English texts - University of Pisa. The platform is a tool to provide teaching materials and to publish news and articles.
